1. Open exactly

C1_M11_JOB_READINESS_GATE_A_PARCELFLOW_RC1.xlsx. Use your own current portfolio/resume/profile plus the fresh fictional role and Technical_Case.

2. Protected first attempt

Keep Gate review, prior Gate answers and external solving closed until the genuine attempt is saved.

3. Required evidence

Role-tailored resume decisions; 60-second intro; 3-minute project walkthrough; technical mini-case with independent validation; behavioral answer; two interviewer questions; salary/logistics response.

4. Critical failures

Invented experience/offer, material technical error not corrected, wrong denominator/grain, unsupported causal claim, inability to explain own portfolio or misleading application statement can block a pass.

Competency decision and exact next route

5. Pass standard

ALL eight critical competencies PASS: portfolio proof, resume/profile truthfulness, project walkthrough, technical case, behavioral communication, professional questions, offer/salary/logistics and role-family readiness. No averaging.

6. Evidence

Save current resume/profile/repo links, Gate workbook answers, independent technical check, mock-interview evidence and truthfulness/logistics note.

7. Exact next route

A clean Gate A pass ends M11 content competency. Gate B only after failed A + saved attempt + Review A + targeted repair + explicit assignment. Review opens only after the genuine attempt is saved; close review before changed retry.
