| Control                                                                                                                                                                                                                                              | Expected |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|
| Eligible renewal rows                                                                                                                                                                                                                                | 32       |
| Renewal rate                                                                                                                                                                                                                                         | 0.6562   |
| Avg support tickets - eligible cohort                                                                                                                                                                                                                | 2.81     |
| <b>1. Corrected baseline defect</b><br>The inherited 2.91 value averaged Support_Tickets across all 44 members. This Gate's renewal cohort is the 32 Eligible_Renewal=1 members; their average is 2.81. The rebuilt Gate makes this cohort explicit. |          |

# Hiring-evidence diagnostic

## 2. Portfolio/resume

Claims must be truthful, links working, strongest project relevant to role and every skill defensible.

## 3. Walkthrough/technical

Project explanation includes grain/quality/validation/limitation. Technical case states denominator and uses an independent check.

## 4. Behavioral/professional

Answer is specific and truthful; project examples are labelled projects; interviewer questions show role understanding.

## 5. Salary/logistics

No invented salary/offer facts. State what is known, what you would research/clarify and a truthful logistics response.

## 6. Fresh retry

Gate B is remediation-only after failed A + Review A + targeted repair + explicit assignment. Clean B pass ends M11; Gate C only after failed B + Review B + repair + explicit assignment. Close this review, repair the named competency and append changed evidence.
